Chinese Journal of Physiology

Statement of Informed Consent

Manuscript title:

Authors (all authors should be listed):

All authors of the manuscript, which is being submitted to *Chinese Journal of Physiology* for consideration of publication, hereby certify that:

1. All experiments on **human** subjects in this study are in accordance with the ethical guidelines of institutional review board or equivalent **and** the Declaration of Helsinki, as revised in 2008. A statement details the above-mentioned must be included in the manuscript.

2. All experiments involving human subjects in the study have been approved by an appropriate institutional review board (IRB)/ethical committee review board or equivalent. The full name of the committee and the reference number of approval must be included in the text of the manuscript.

3. For all experiments involving human subjects in the study, informed consent **must** be obtained from all participants or legally authorized representative (their parents/guardian, in the case of children under 7 or unconscious participants) and the act must be included in the text of the manuscript. The form of informed consent should be specified as well (e.g. written form).

Chinese Journal of Physiology reserves the rights to reject manuscripts suspected to have potential serious infringement of ethical principles, even if accepted.
